

Manager Commentary

With the sole holdings in this Fund now being the two Parallel vintages, investment developments are dependent on activity at the underlying portfolio company level. The 2007 vintage enjoyed two positive quarters with valuations overall on the increase bringing them back to a level approaching cost. There were three follow-on investments made during the second half of 2010, while holdings in Zenith and HCD Homecare were exited producing gross realised IRR's of 30% and 32% respectively. The proceeds of these sales went towards repaying the borrowing facility the pool has. In contrast, the valuation of the 2008 pool declined slightly during both quarters. There was a small follow-on investment part financed by the Fund as the full commitment to the 2008 vintage has not yet been drawn. There was also a partial realisation of Inspicio which led to a distribution received by the Fund in October. The cash received will be retained by the Fund to ensure there are sufficient funds to cover any future drawdowns.

Fund Objective

The Investment Manager will manage the Fund's portfolio with a view to realising its assets within the shortest period of time consistent, with achieving a reasonable realisation price for such assets and with the intention of disposing of all such assets within 5 years. Realisations will be managed, as far as possible, with a view to ensuring regular and consistent distributions of proceeds to Shareholders.

Share Trading

A significant landmark in the process of providing liquidity to investors was reached on 31 March 2010 with the lifting of the suspension of trading of the shares on the Channel Islands Stock Exchange.
