

**Manager Commentary**

Since the date of this factsheet, all FX hedging has been removed at the fund level. These trades were executed in early February when exchange rates were at 1.58 for USD/GBP and 0.89 for GBP/EUR. The rise in the value of USD relative to GBP since this date, has benefited investors with USD assets increasing in value as a result. Meanwhile the EUR initially declined in value, but at the time of writing has now recovered to the early February level. Estimated FX exposure reports continue to be published on the CISX shortly after month-end to allow investors to hedge if they wish to do so. The borrower in Shipping Deal 1 has drawn down additional cash, both during January and subsequently, in order to fund vessel conversions and modifications approved under the terms of the restructure. The loan remains marked to the value of the underlying collateral, which has not changed month on month. This means, any such draw downs will have a negative impact on fund NAV until the collateral is revalued, or the loan is judged to be performing. During January, this negative impact was offset by the gain on the currency exposure of this loan, leading to a modest overall increase in the value of this position. The majority of the required vessel repairs and modifications have been completed and subsequent to this factsheet date, 6 of the 7 vessels are now employed. We will be applying for the suspension of trading to be lifted on 31 March. After the lifting of suspension, shareholders will be able to deal through any stockbroker. The fund will be in a position to begin to use its share buyback powers and purchase up to 14.99% of its shares for cancellation. Shares will be bought at a discount to the prevailing NAV, so shareholders should take independent advice before deciding whether to sell in to the buyback program. We will be exploring other methods of returning shareholder capital in due course. To assist investors we will be producing further factsheets for February and March, then bimonthly thereafter.

**Fund Objective**

The Investment Manager will manage the Fund's portfolio with a view to realising its assets within the shortest period of time consistent with achieving a reasonable realisation price for such assets and with the intention of disposing of all such assets within 5 years. Realisations will be managed, as far as possible, with a view to ensuring regular and consistent distributions of proceeds to Shareholders.

**Holdings**

Investment	Currency of Investment	Value as at 31 Dec 09 (in GBP)	Cash Movement	Value as at 29 Jan 10 (in GBP)	Contribution to Overall Monthly NAV Movement	Comments / Additional Information
Caritas Royalties Fund II (Bermuda) Ltd	USD	1,994,743	-	2,049,317	0.39%	Monthly fund revaluation based on the NAV provided by the fund's administrator. Redemption submitted for the next available dealing date in June, with proceeds due in September.
